

Mission Statement

- J & H Industries is committed, as are all good corporate citizens, to help preserve our fossil fuel deposits.
- We are committed to find other sources of fuel that is cleaner, cheaper and can regenerate itself.
- In connection with this goal we are making the development of an efficient, high quality grain burner a top priority that can service our customers need for world class quality standards.
- We pledge our corporate integrity, resources and engineering know-how to produce products that are state of the art, safe both to people and the environment.
- We assure our loyal customers and friends that we will do everything in our power to stay on the cutting edge in development of the technology for grain-burning products.
- J & H Industries further pledges to the buying public, its customers now and in the future its commitment to the highest quality customer service in the industry. It is our goal to produce the best products possible and to be a responsible corporate citizen too.
